

RAUMLAND
SEKTHAUS – SEIT 1984

The Raumland Philosophy

Taste is not objective - it cannot be measured. It took many years of patience and countless attempts to get closer - step by step - to the one goal: to achieve the optimum out of the complexity and power of our grape varieties, the traditional methods and the opportunities available today. This is our vision, which challenges us every single day. From one generation to the next.

... and a family in love with sparkling wine

Our Sparkling Wines

TRADITION

- more than 36 months ageing on lees -

Lifeblood. Craftmanship. Dedication: Our Tradition-Cuvées have been accompanying us since day one. They age on the lees for a minimum of 36 months - 3 years - and are elegant and lively with an animating mousseux, rich in finesse, elated with fine fruity flavours.

RÉSERVE

- more than 90 months ageing on lees -

Our Réserve sparkling wines are characterized by a long time ageing on the lees - more than 90 months - more than 7 years. The yeast autolysis leads to elegant aromas of Brioche, nut butter and roasted almonds. These sparkling wines also feature a particularly delicate mousseux and a complex body with a long finish.

GRANDE RÉSERVE

- more than 120 months ageing on lees -

Only the "crème de la crème" of our sparkling wines receive the title "Grande Réserve": outstanding vintages for Sekt, expressive base wines and an exceptionally long ageing on the lees of more than 120 months - 10 years - result in a complex sparkling wine. The grapes for these sparkling wines grow in the Dalsheimer Bürgel, our most important vineyard site in Rheinhessen, characterized by loess, marl and marine limestone. This soil leads to great minerality and a well-balanced fruit and acidity level in our Sekt. The "Grande Réserve" are limited to 300-1000 bottles.
