**TASING NOTE**

We are true Rosé fans! Our Rosé shimmers in pale pink, quickly becoming salmon-colored in the glass. On the nose it is playful, with nuances of red berries, cherry blossoms and rhubarb. In the mouth it is fresh and fruity. It shows delicate citric notes and floral echoes of summer blossom. For us, the Rosé is an all-round talent: whether as an aperitif or as a meal companion, even as a partner for dessert or cheese.

**PRESS**

Caro Maurer, Donna Magazin 02/2021:

„Germany's answer to champagne which beats its French competitors in taste and price. With red berries, cherries, nuances of roasted nuts. As an aperitif, or paired with cold starters like vegetables or salmon.“

Gault & Millau, Bunte Magazin 12/2020:

„Fluffy biscuit, coated with kumquats“
